

> RFG PLUS[™]

Radiofrequency Generator

VNUS is proud to introduce our most advanced radiofrequency generator, the RFG PLUS, engineered with numerous new features and benefits.

Features

> Intuitive User Interface

- Colored gauges indicate clinical treatment ranges
- Simple, fast viewing of treatment parameters

> Large Color Screen

- Intuitive visual communication
- Easy to view from a distance, or from an angle
- Clear screen layout with distinct functional areas

> Continuous Feedback

- Real-time temperature and impedance values
- Permits user to view results of procedural techniques, such as tumescent infiltration, as they occur

> New Internal Software

- Faster signal processing optimizes parameter displays
- Upgradable via included multimedia card

> RFG PLUS

> Redesigned Outer Box

- Built-in handles for easy lifting and carrying
- Separate backlit buttons for multiple functions provide clear visibility in a darkened room
- Side holder for Quick Reference Guide
- Convenient power cord holder

> New Tones

- Pleasant alert tones
- Different tones indicate separate functions
- Adjustable volume

> Warranty

- Full 1 year warranty included with purchase
- Extended warranty programs available
